 - 2. The completed request form shall be submitted to the chaplain's/warden's/superintendent's designee, who will conduct any necessary inquiry or investigation into the matter and within 14 working days of receipt of the form from the resident, furnish pertinent information in writing to the Religious Programs Coordinator.
 - a. Even if the particular request for accommodation has been previously approved within KDOC, the request for accommodation shall be forwarded to the Religious Programs Coordinator for review, who shall, at a minimum, confirm that the particular request has been previously accommodated at another facility within KDOC, and in what manner and under what circumstances.
 - b. The Religious Programs Coordinator shall research the request as deemed necessary by the Coordinator and inform the chaplain's/warden's/superintendent's designee once the information is received. Once a recommendation has been made, the Religious Programs Coordinator will inform the chaplain's/warden's/superintendent's designee regarding any additional processing which may be required.
 - c. The Religious Programs Coordinator may inquire of the resident seeking the accommodation, contact clergy or other representatives or practitioners of the religion, consult with Departmental contract religious advisors when appropriate, consult any texts of or other reliable writings about the religion, or conduct any other investigation necessary to determine the factual background of the request, and to make a recommendation as to whether and how the request should be accommodated.
 - 3. Within three (3) working days of completion, the recommendation and the completed form shall be forwarded by the Religious Programs Coordinator to the warden/superintendent or designee with the reasons for the recommendation attached.

5. The resident may utilize the grievance procedure to appeal the warden's/superintendent's decision if the resident finds it unacceptable.

VI. Determination to Accommodate Resident Requests

- A. Requests for accommodation of certain religious practices and observances shall be considered from residents who provide sufficient evidence of their belief and affiliation with the religion.
 1. All requests for accommodation of religious practices shall be treated equally regardless of the religion involved.
 - a. Equal, consistent treatment of all religions or religious beliefs, shall not always require the same accommodations of the same religious practices in all facilities or for all residents.
- B. The determination to be made when a resident requests an accommodation of a religious practice shall be whether any existing restriction on the practice or any justification offered for denial of the practice is in furtherance of a compelling correctional interest, and is the least restrictive means of furthering that compelling correctional interest.
- C. A claimed religion or religious belief is entitled consideration for accommodation if it:
 1. Has an established historical or organizational foundation; or,
 2. Occupies a place in the lives of its claimed adherents that is parallel to that of more conventional religions, rather than a personal philosophy.
 3. The determination shall be made, in accordance with the procedure outlined above, when a resident seeks recognition of a set of beliefs or religion by the Department or facility. Some factors that may be taken into consideration in making the determination include the following:
 - a. The history or origin of the religion or religious beliefs, including when, where, and by whom it was founded or established;
 - b. Whether the religion is organized, or has established or formed churches, temples, synagogues, or other facilities or groups for the purpose of practicing the religion;
 - c. Where unconventional or uncommon, whether it can be confirmed that the resident's set of beliefs or religion plays the same role in the resident's spiritual life as more conventional religions or religious beliefs play in the lives of their practitioners; and,
 - d. The relationship between the accommodation and the religious belief or beliefs.
- D. All requests for accommodation of religious practices shall be treated equally regardless of the religion involved.
 1. The determination to be made shall not be whether the chaplain's/warden's/superintendent's designee or the warden/superintendent approves of the religious beliefs or religion to which the resident claims to adhere, but:

- a. Whether the claimed religion or beliefs are entitled to recognition pursuant to subsection C., above; and,
 - b. Whether the manner in which the resident seeks to practice the religion or exercise the beliefs will disrupt departmental and facility practices, policies, or operations that are founded on concerns for security, safety, rehabilitation, or sound correctional management.
2. Equal, consistent treatment of all religions or religious beliefs shall not always require the same accommodations of the same religious practices in all facilities or for all residents.
- a. The nature of a particular facility, including the physical limitations, the custody level(s) and security classification status of the resident housed there, and the correctional goals sought to be met there may be taken into consideration in determining whether to allow a particular religious practice at the facility.
 - b. Some factors that may justify the restriction of certain religious practices for which accommodation is sought at particular facilities include, but are not limited to the following:
 - (1) A facility may simply not have the physical capacity to accommodate the type of religious practice for which permission is sought.
 - (2) While some residents may be entitled, by virtue of their behavior records, the passage of their term(s) of incarceration, or other legitimate classification criteria, to be classified at a custody level that allows them to live at a facility where security and operational needs do not preclude the accommodation of particular religious practices, those practices might appropriately be prohibited or restricted at a different facility.
 - c. The correctional goals of a particular facility may be more significantly impeded by a particular accommodation than would those of a different facility.
 - (1) A facility where the goal is to provide and require meaningful work assignments for the resident population might appropriately refuse to excuse residents from a work detail temporarily to attend religious services or for the full work day on the observance of a religious holiday; while,
 - (2) Such a restriction may be inappropriate at a facility where the facility operations are not significantly impacted, and the residents are not similarly otherwise occupied.
- E. Requests for accommodation of certain religious practices shall be considered only from residents who are actual members or adherents to their religious beliefs or in their affiliation with the religion.
1. Some factors that may be considered, but are not pivotal, in making the determination about the resident's affiliation include:
 - a. Whether the resident indicated membership in or affiliation with the religion upon admission or has a verifiable history of such affiliation;
 - b. Whether the resident qualifies for membership in the religion according to the religion's own criteria for membership;
 - c. Whether the resident is familiar with the primary written text(s), if any, of the religion; and,

- d. Whether the resident has changed religious affiliations and how often.

VII. This IMPP must serve as final policy in all departmental facilities, and no General Orders shall be developed or implemented on this subject.

NOTE: The policy and procedures set forth herein are intended to establish directives and guidelines for staff and residents and those entities that are contractually bound to adhere to them.
